### Kim's Tip: Make-up Tips for Wearing Glasses

Wearing glasses does not have to be a drab. Try these simple make-up tricks to enhance your natural beauty underneath the frames.

- **Tone Your Lipstick According to Your Frames** – Pair a brighter lipstick with dark and bold frames. A more neutral lip shade works better with light and delicate frames.
  - **Brows** – Brows frame both your eyes and glasses. Use a brow powder or gel to give them a soft definition.
  - **Control Shine** – The glare from your glasses can make these areas seem shinier. Use a translucent powder or blot paper on oily areas of the face.
  - **Eyelashes** – Wear mascara to help your eyes stand out when you wear your glasses.
